ABSTRACT OF THE DISCLOSURE

METHOD, SYSTEM AND PROGRAM FOR SPECIFYING AN ELECTRONIC FOOD MENU ON A PERSONAL DATA PROCESSING SYSTEM

Multiple food menu items are retrieved from a data storage medium by a data processing system with access to the data storage medium via a communications medium. The multiple food menu items are compared with previously stored food preferences for a particular customer. A food menu is selected, wherein the food menu items that satisfy said food preferences for said particular customer are distinguished, such that an electronic food menu is specified for a particular customer.
